Wednesday 2 March 2011 **9am—12.30 pm**

Thursday 3 March 2011 **9am—12.30 pm**

The aim of this skill-based professional learning program is to build the capacity of mentors to support new educators through ongoing professional learning embedded in day-to-day practice.

When teacher registration is introduced in the ACT, during 2011, a mentoring program will be established to meet the needs of the registration process.

Louise, a former school principal and founding director of the SA Centre for Leaders in Education, is always in high demand as an educational consultant. She has been the lead validator for the ACTDET external validation of schools process for many years. Over the last 13 years Louise has presented a variety of courses in Canberra on leadership and a series of workshops for new educator coordinators in schools.

Please register your participation on the **Professional Learning and Events Calendar (PLEC)** by **Friday 25 February.**
